I will use .080 alum sheeted yellow with black art and text. 18" x 18" will be \$62.00 or 12" x 12" for \$54 on reflective. \$10 less on none ref.  
The 12" x 12" will be out at 15mph to 25mph.

Hi!

I would like 2 duck crossing signs to hang outside. I'm not sure what the standard size is for that, but whatever you have on hand will be fine. I just recently ordered some no hunting and keep off signs. Could you use that same material/metal? I have an account under United Park City Mines. Please use Richardson Flat as the P.O. Thank You.
